SYNOPSIS

- Innovative and results-driven Software Developer with extensive experience in front-end web development and a strong foundation in C/C++, Python, and JavaScript. Adept at building dynamic and high-performance web applications utilizing modern technologies and frameworks such as React.js, Redux, and RESTful APIs. Proven ability to manage state and side effects efficiently with React Hooks.
- Key achievements include qualifying for the prestigious GATE-2020 exam, which underscores a strong technical and analytical capability.

EDUCATION

M.Sc in Computer Science
Jul 2019 | Visva-Bharati University
CGPA: 6.39

B.Sc in Computer Science
Jun 2016 | Burdwan university
Percentage: 57

SKILLS

Technologies:
• C/C++ Programming • Python • HTML • CSS • Javascript • SQL

Library:
• React.js

Tools:
• Redux • React Hooks • Rest API

Project Management:
• Git for version control

ACHIEVEMENT

Gate-2020 Qualified

EXPERIENCE

SOFTWARE DEVELOPER | Hamac Computech Solutions
Bolpur Sriniketan, West Bengal, India
Feb. 2022 - Present (Hybrid)

- Developed and maintained dynamic web applications using React.js, ensuring high performance and responsiveness.
- Managed state and side effects using Redux and React Hooks, optimizing application efficiency and user experience.
- Integrated RESTful APIs and third-party services to enhance functionality and improve data handling within applications.

SALESFORCE DEVELOPER INTERN | Delipat IT Pvt Ltd.
Durgapur Global IT Park, WestBengal
Aug 2023 - Oct 2023

- In that internship I have done various scenarios in Salesforce Admin and Salesforce Development:
- In Sales Cloud- Lead Conversion to Account, Opportunity, Contact using Flow, Using Screen Flow shows all Leads on the selected date just click on a list view button, Using Screen Flow Search all Accounts with account status, etc.
- In Service Cloud- Email to Case, Web to Case Creation, Assignment rule, Escalation rule, Omni Channel, Case creation to case close (Case Life Cycle), etc. .

FRONTEND WEB DEVELOPER | Self Employed
Feb 2020 - Feb 2022

- Built Applications for various clients as freelancing projects.
- Built Some own projects.

PROJECTS

SWIGGY CLONE - REACT APPLICATION
Used React.js, Redux, React Router, Axios, JWT, WebSocket

NETFLIX CLONE - REACT APPLICATION
Used React.js, Redux, React Router, Axios, JWT, HTML5 Video API, TMDb API, OMDB API

QUIZ APP
This Quiz App is basically made for fun. There are some questions and every question has five options. There is only one correct answer
Used HTML CSS Javascript

LETTER RECOGNIZATION
This project is basically to recognize the letter from various handwritten fonts.
Using KNN-Classifier
This is my M.Sc. Final Year Project

CALCULATOR APP
This is basically as easy to use as a calculator which works with it's architecture
Used HTML, CSS, javaScript
